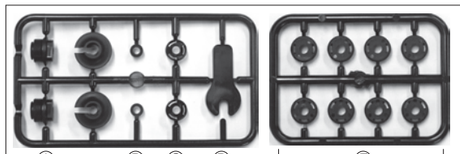
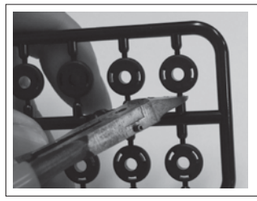
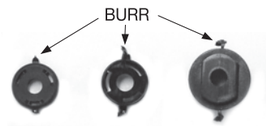
SHOCK ASSEMBLY INSTRUCTIONS

STEP 1



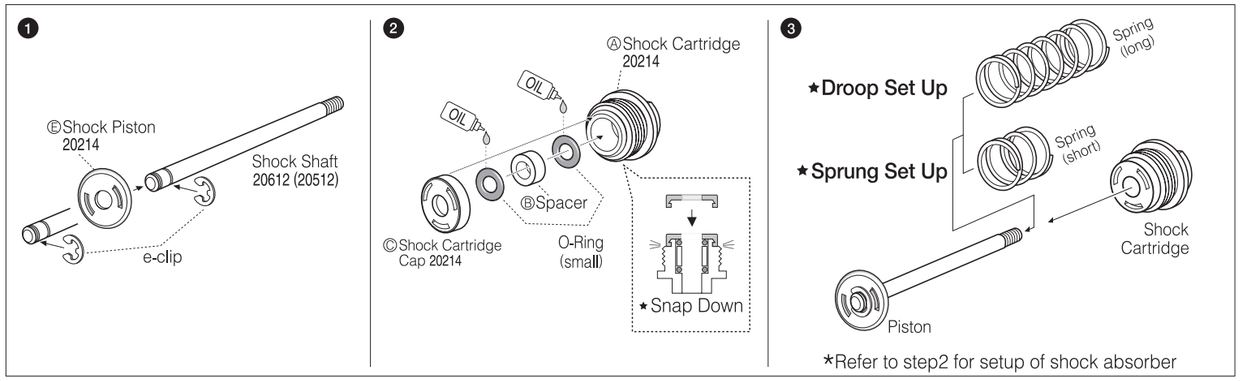
Ⓐ Shock Cartridge 20214
Ⓑ Spacer
Ⓒ Shock Cartridge Cap 20214
Ⓓ Tool
Ⓔ Shock Piston 20214





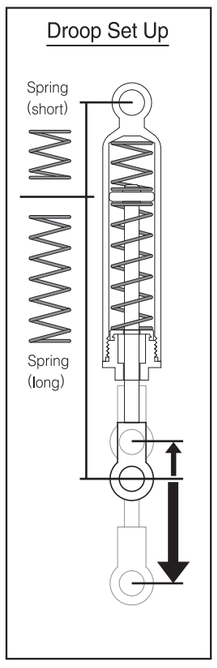
Remove remaining burrs carefully with hobby knife.

Good !

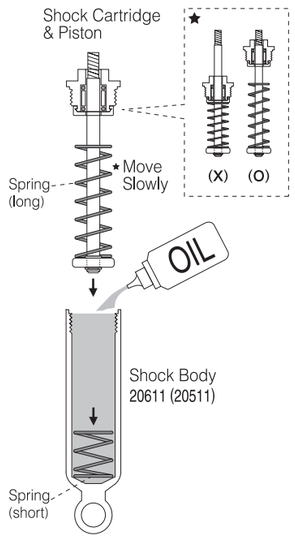


STEP 2 For Droop Set Up

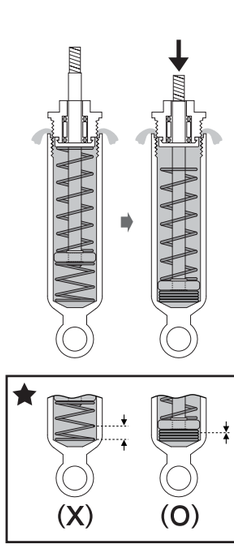
This setup can help when your car is needed to have a slammed stance and low Center of Gravity.



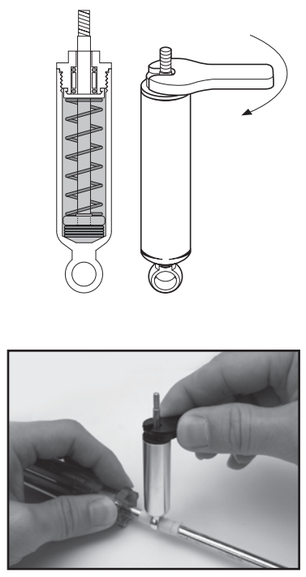
❶ Holding the shock body inverted, fill the Shock Body with Shock Oil.



❷ - Slowly Pull down Shock Cartridge & Piston.
- This will bleed the excess oil out of the Shock.

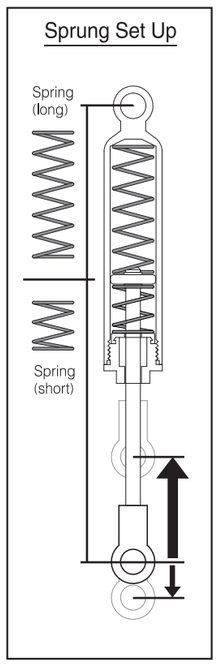


❸ Slowly tighten the Shock Cartridge.

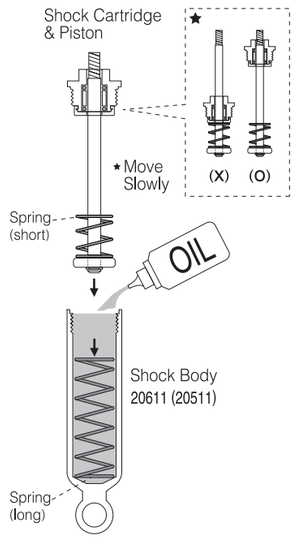


STEP 2 For Sprung Set Up

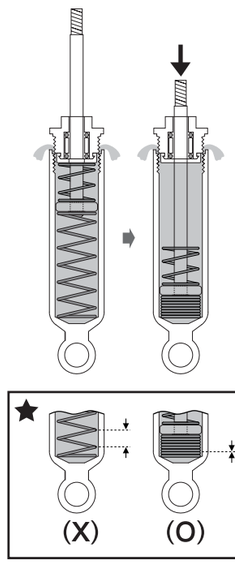
This setup can make you have an advantage on rocks or steps as high as wheelbase.



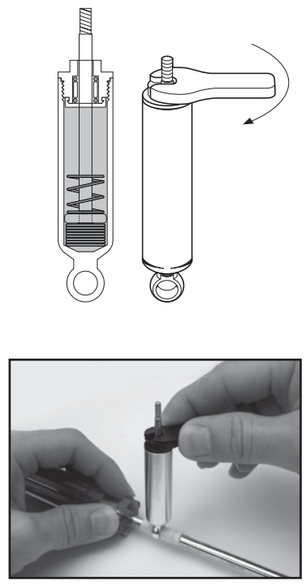
❶ Holding the shock body inverted, fill the Shock Body with Shock Oil.



❷ - Slowly Pull down Shock Cartridge & Piston.
- This will bleed the excess oil out of the Shock.



❸ Slowly tighten the Shock Cartridge.



STEP 3
